GALERIJAFBEELDINGEN

Adjustable scoring saw blade with LFZ flat teeth suited for cutting of double sided veneer and laminate boards, MDF and particle board. For panel sizing machines and tabel saws. Split scoring saw blade is supplied with spacers to adjust thickness of blade and achieve a perfect cut. Make sure to use the right amount of teeth to achieve optimal results of your project. A low number of teeth is suited for fast-paced and rough sawing. A high number of teeth calls for a lower operating speed but guarantees a clean cut.

PRODUCT INFORMATION

- LFZ flat teeth
 - For MDF and particle board
- For double sided veneer and laminated boards
 - HW scoring saw blade
- Supplied with spacers to adjust thickness of blade
