

AIR FLUX DUSTY AF-8000-DC DUST EXTRACTOR - 400 V 7,5 PK

€3 .954,55 (excl. VAT)

The Air Flux® Dusty AF-8000-DC is an industrial dust extractor with large collection capacity and low noise level. The sturdy sheet steel construction weighing 300 kg accommodates a three-phase 400 V motor, which generates an output of 7.5 HP and features a large propeller with a speed of 1440 rpm (instead of the usual 2880 rpm), which provides very quiet extraction. Furthermore, the vacuum cleaner is equipped with 12 filter bags (5 microns) above and 4 residual bags with a 600 mm diameter below.

SKU: AF-8000DC
