

ANGLE COPIER TC133R

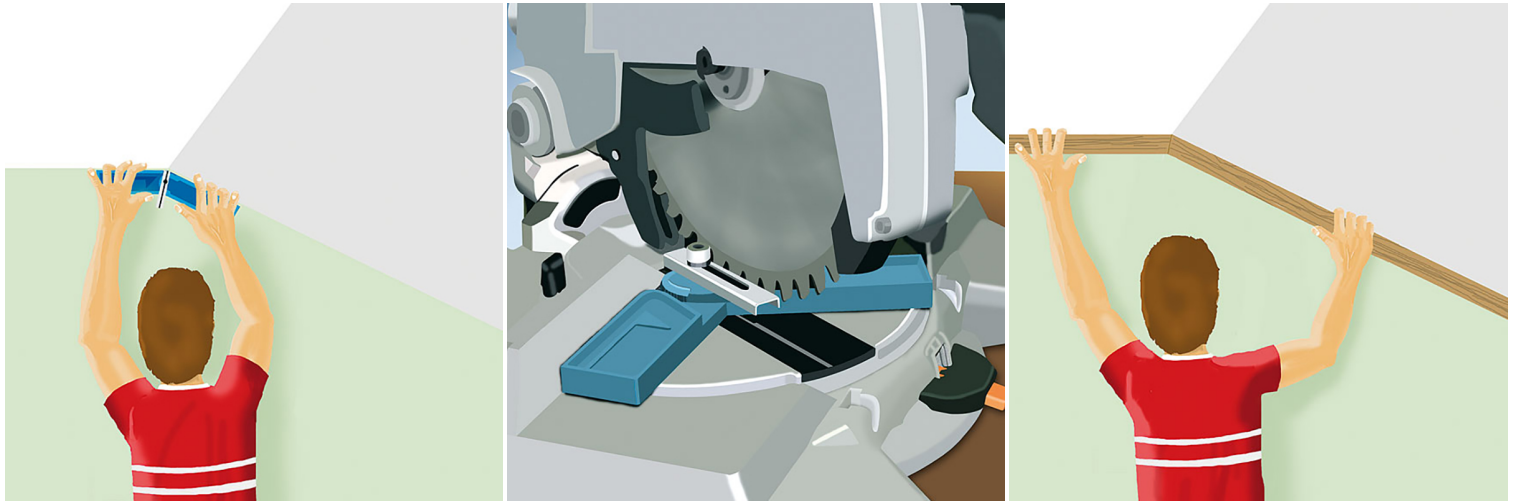

€24,43 (excl. VAT)

Virutex's 'Angle Copy' angle copier always ensures the correct angle without having to calculate or measure angles. Simply press the Angle Copy into the corner you are working in and the device will copy it. With the help of a button, you can affix the set angle so that the correct angle is always cut. Can be used in both inside and outside corners. Thanks to the protractor, you can also use the Angle Copy to manually indicate angles on your workpiece.
