

BELT SANDER AF11 WITH THREE-PHASE INDUCTION MOTOR 400V

€638,08 (excl. VAT)

Belt sander with extra powerful three-phase motor for levelling and rough work. Thanks to this powerful engine, the machine will not let you down even on the toughest jobs. The AF11 sander is very stable and suitable for two-handed use. With the help of the large sanding surface, this machine achieves a high efficiency. The high stability in turn ensures a beautiful and scratch-free finish for your workpiece. With connection for dust extraction.

Thanks to its larger sanding area (175x100mm) Virutex distinguishes itself from all other belt sanders on the market. The larger surface area increases stability and the machine always remains perfectly balanced & flat on your workpiece. What's more, thanks to the induction motor, this model is up to 40% quieter than comparable models and delivers up to 30% more power.

SKU: VIR-AF11
