BOW FEATHERDUO FP3 FEATHERBOARD

€67,13 (excl. VAT)

The BOW FeatherDUO featherboard is a stackable version for higher workpieces. Like the FeatherPRO, it features an innovative use of high-density EVA Foam / foam feathers and clamping system that increase control over insertion, dramatically improve recoil and better protect your wood from damage. This compared to the general plastic feaherboards. EVA is a high density, closed cell material with long life that you don't have with the common plastic featherboards. Ideal for table saws, routers, guides

SKU: PIH-63101
