

BOX SET: PRO-WORK

€475,21 (excl. VAT)

This case set offers a lot of indispensable tools that the professional needs to get started with his combi- or milling machine. The set consists of a cutter head height 50mm, including three handy profile knives that allow a lot of machining operations to be carried out. This set also includes three other cutter heads: an adjustable grooving cutter diameter 120mm, including a set of adjusting rings, a grooving cutter for tenons diameter 140mm and a panel raising cutter head diameter 150mm.

Finally, the set also contains some useful accessories to get started with the various cutter heads. Use the adjustment rule to always set the depth and height of your cut correctly. The set (2) vertical quick release clamps are made of steel, equipped with PVC handle and soft neoprene pressure foot to prevent damage to your workpiece.

SKU: 3FR3KTPRO

GALERIJAFBEELDINGEN

This case set offers a lot of indispensable tools that the professional needs to get started with his combi- or milling machine. The set consists of a cutter head height 50mm (art.3FR30935030). This multifunctional cutter head is suitable for almost every profile knife on the market today.
