

BRENNHOLZ TT650RTS 230V MOBILE SAW TABLE

€1 .756,19 (excl. VAT)

Robust and fully steel, mobile saw table for quick, easy and safe sawing of firewood. This saw table is fully compliant with the CEN safety standards for this type of machinery. Equipped with a cover so that you cannot approach the saw blade while working. Includes zero voltage protection on the switch for improved safety in the event of voltage loss. Brennholz has been synonymous with reliability and safety for years. At the top the machine is fitted with a claw with coarse teeth to hold the wood. This claw has a double safety function. On the one hand, the claw holds the wood and on the other hand it blocks the cutting table when the claw is not lowered.

Fully assembled on delivery and ready to use.

SKU: 0BH650RTS

Robust and fully steel, mobile saw table for quick, easy and safe sawing of firewood. This saw table is fully compliant with the CEN safety standards for this type of machinery. Equipped with a cover so that you cannot approach the saw blade while working. Includes zero voltage protection on the switch for improved safety in the event of voltage loss. Brennholz has been synonymous with reliability and safety for years. Experience all the advantages of solid Austrian quality thanks to this firewood saw. This sawing machine is equipped with a saw blade in German chrome with diameter Ø650mm. The direct drive induction motor delivers 3.5 HP.

At the top the machine is fitted with a claw with coarse teeth to hold the wood. This claw has a double safety function. On the one hand, the claw holds the wood and on the other hand it blocks the cutting table when the claw is not lowered. Thanks to all these features, this table is very suitable for cutting branches or tree trunks between 80mm and 205mm thick. The saw blade is effortless to operate and cuts quickly through the wood. This allows you to cut large quantities of wood in one go without any problems and ergonomically. Equipped with a strong base with two castors and a sturdy handle making it easy to move the machine. Easy to move, both indoors and outdoors and on uneven surfaces. Fully assembled on delivery and ready to use. Use at least power cable with thickness 2.5m² to avoid damaging the motor.

PRODUCT INFORMATION

- Mobile saw table
 - Simple but very solid design
 - Mobile with sturdy wheels
- German chrome saw blade 650mm
- Powerful induction motor with direct drive
 - Long-term sawing without problems
 - Sawing capacity 80mm - 205mm
 - Tip: use at least 2.5m² cable
