

CLAMPING DEVICE 200MM - FOR BELMASH UNIVERSAL 2000

€61,98 (excl. VAT)

The Belmash clamping devices provide increased safety when working with your thicknessing machine. Safely plane beams or boards on any Belmash machine. The pusher ensures that the workpiece is clamped to the work surface. This facilitates the flow of material, giving you a clean and precise finish. These clamping devices are easy to install using the screws and washers. The opening can be adjusted by means of a handle on the top and the spring clip on the side. In this way, a good supply and pressure force is always assured.

This pusher is suitable for use on the Belmash Universal 2000.
