

CLAMPING SUPPORT SP270R

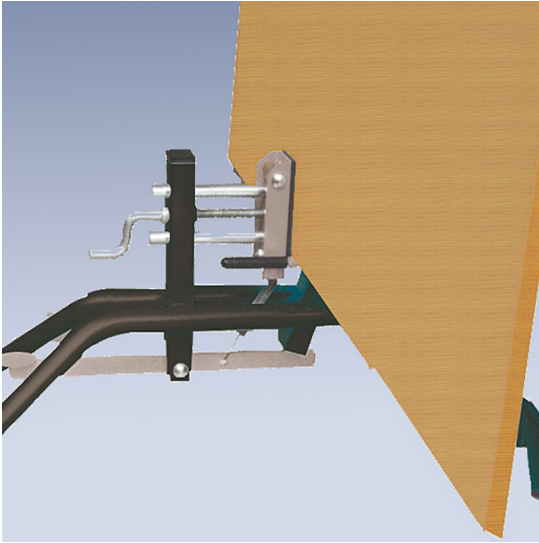

€195,45 (excl. VAT)

Practical and reliable support that makes it possible to install panels, doors, etc... to be held in place. For pieces with a maximum thickness between 6mm and 80mm. Thanks to its robust design, the SP270R easily supports pieces up to 80kg. The support is very easy to use. Secure your piece by placing it in the clamp and pressing it down. To unload it again, use the foot pedal.
