

CLAMPING SUPPORT WITH WHEELS SPR770T

€294,76 (excl. VAT)

Practical support with wheels that makes it possible for one person to hold and transport all types of panels, heavy doors, wood, PVC, aluminium, etc. For pieces with a maximum thickness between 6mm and 110mm. Thanks to its robust design, the SPR770T easily supports pieces up to 200kg. The clamp is covered with a protective coating to prevent damage to your pieces. The SPR770T support is very easy to use. Secure your piece by placing it in the clamp and pressing. To unload it again, use the foot pedal.

With the help of the pneumatic wheels, the support can easily be moved, even on uneven ground. This mobile support even manages to overcome a few low steps without any problems. Thanks to the blocking system, you can also use this support for stationary work. In short, the ideal accessory for, for example, installers of doors that have to work on their own.
