

CORE BOX BIT R11 (Z=2) SHANK 8MM - Ø22MM

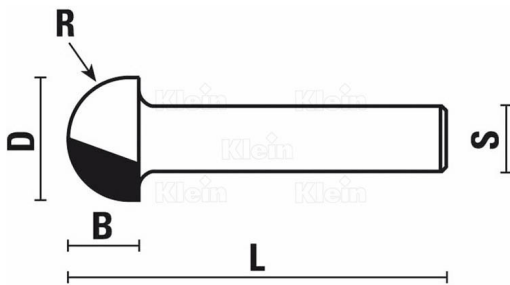

€38,20 (excl. VAT)

Thanks to these router bits you can cut a half-round groove on every kind of wood. They are still used to cut decorative grooves to break up large vertical surfaces and to adorn columns and edges. They are also often used to cut grooves for a better grip. For example for handles or drawers. Pass multiple times when removing large quantities of material.
