

CUTTING MACHINE RZ270S

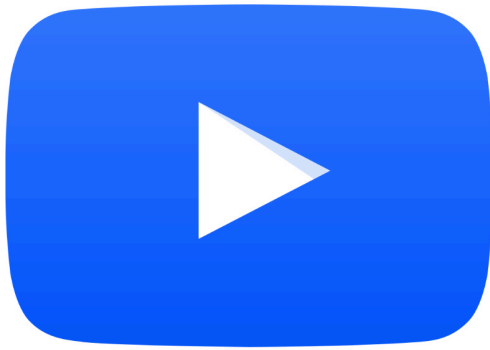

€749,36 (excl. VAT)

Specially designed for cutting doors, doorframes, base boards, skirting boards and shadow joints. The ideal tool for installers of parquet or other floor coverings such as carpets. Equipped with a powerful motor (1300W), the machine ensures a nice and precise cut, easy and fast. The sawing height and depth are adjustable by means of the millimetric adjustment. The maximum cutting depth of 47mm makes it possible to cut the doors in one go. Includes dust slide and connector for external dust extraction.

Standard delivery with one multi-purpose saw blade Ø165mm. Other saw blades available separately.

SKU: VIR-RZ270S
