

DIAMOND WAVE SHARPENER FOR RADIUS CHISELS

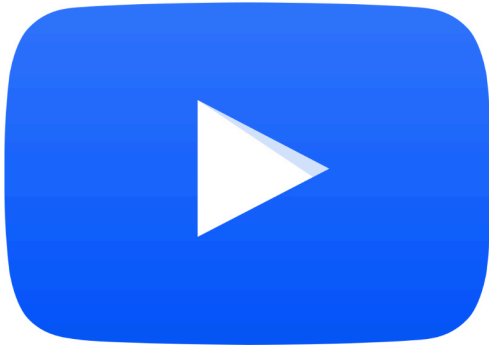

€93,90 (excl. VAT)

De Diamond Wave is the ideal tool for resharpening curved tools, like gouges, carving and woodturning tools.

SKU: WAVF

GALERIJAFBEELDINGEN

De Diamond Wave is the ideal tool for resharpening curved tools, lie gouges, carving and woodturning tools. The sharpener has a monocrystalline diamond coating, which ensures superior sharpening quality and minimal wear. It combines a convex and concave diamond surface in one single sharpening tool. Suitable for all tools with a radius from 1.6 to 25 mm.

Comes with an anti-slip pad.

PRODUCT INFORMATION

- Fitted with a monocrystalline diamond coating: superior sharpening quality and minimal wear
 - One single tool for convex and concave surfaces
- Suitable for all tools with a radius from 1.6 to 25 mm
 - Comes with an anti-slip pad for easier use.
 - No oil needed: sharpen dry or with water
