

DOUBLE DRUM SANDER TT965

€4 .950,00 (excl. VAT)

The TT965 has a powerful induction motor for continuous work, a double drum, a precise height adjustment and a quick-release device for the sanding belts.

SKU: OSA0965/2

GALERIJAFBEELDINGEN

The TT965's balanced drums provide a quiet run and deliver a highly efficient sanding performance. The conveyor belt can be easily adjusted, and the sanding belt can be easily changed. It has a powerful induction motor for continuous work, a precise height adjustment and a quick-release device for sanding belts with easy change. The sanding belt is applied eccentrically to the sanding roller, avoiding streaks. This is a powerful and robust machine, suitable for professional continuous use. The rear sanding roller has a fine adjustment for removal. The hard rubber lining of the sanding drums guarantees an excellent sanding performance. At the top, you will find two dust outlets for dust-free work.

The sander comes standard with 1 x grit 120 and 1 x grit 180. The sanding belt is also available in grit 60, 80, 100, 150 and 240.
