

DOVETAIL BIT 14° (Z=2) SHANK 12MM - Ø25,4MM

€38,00 (excl. VAT)

This bit is made specifically for machining dovetail joints. Dovetail joints are classic, but extremely strong, mechanical connections to be used in general woodworking. Use these joints to construct cabinet drawers, coffins, cases, or other types of furniture. Thanks to the hard metal (carbide) cutting edges, a clean and accurate result of all your milling and woodworking projects is guaranteed.

To work even faster or more efficiently, it is possible to use a dovetail-mold.
