

DUROTEC EXPANSION ROLL DURO-MASTER

€70,25 (excl. VAT)

Handy expansion roller for using sanding sleeves on the Durotec brush machine. This expansion roller should always be used in combination with one of the abrasive sleeves [Duro-Sleeve](#).

SKU: DUR-310113

GALERIJAFBEELDINGEN

A handy solution is available for the use of sanding sleeves. These are simply slid over the expansion roller and, thanks to centrifugal force, they are tightened securely. This way, the sanding sleeves stay securely in place during sanding, allowing you to work efficiently and accurately. This method ensures optimum grip and makes it easy to quickly change abrasives. Using sanding sleeves on the Durotec brush machine has never been more convenient!

PRODUCT INFORMATION

- Convenient solution for use of sanding sleeves.
- Easy to slide over the roller and firmly tensioned by centrifugal force.
- Easy to slide over the roller and firmly tensioned by centrifugal force.
 - Optimal grip and easy changing of abrasives.
- Improved dexterity when using sanding belts and sanding sleeves.
