

ELECTRIC HAND PLANER CE35E

€284,42 (excl. VAT)

This Virutex electric hand planer combines high power (700W) with light weight. The ideal combination for high quality planing, both inside and outside the workshop. Easy to handle and carry. The specially treated sliding base is designed to achieve perfect planing. The CE35E planer is fitted as standard with replaceable blades in high quality carbide (widia). The machine does not require adjustments when the blades are changed. The shavings are ejected through the exhaust on the right side.

Standard delivery with reversible blade in high quality carbide (widia). Optionally available: a handy PVC case, a guide to work even more precisely, a base for stationary use of the CE35E.

SKU: VIR-CE35E
