

ELECTRIC PLANER DUO CE223X - PLANING + SANDING

€576,25 (excl. VAT)

This revolutionary planer and sander from Virutex is light and easy to use. Thanks to the exchangeable tool holder, you can quickly switch between planing and sanding or vice-versa. A cutting head with shearing blades in high-quality carbide (widia) is fitted as standard on this sander. These blades have a width of 80mm and, thanks to their helicoidal cut, deliver a perfect result of all your planing work. Included in the package is a sanding sleeve with grain 40 sandpaper roller. The sanding roller is suitable for use on multiple surfaces such as wood, plastics or solid-surface materials. Sanding rollers with different granules or a cutting head with straight knives are available separately. Because of these characteristics the CE223X is very suitable for a wide range of applications.

Supplied as standard in a handy PVC case.

SKU: VIR-CE223X
