

ELECTRIC VACUUM TABLE SVE680 - AUXILIARY SUPPORT TILTABLE 90°

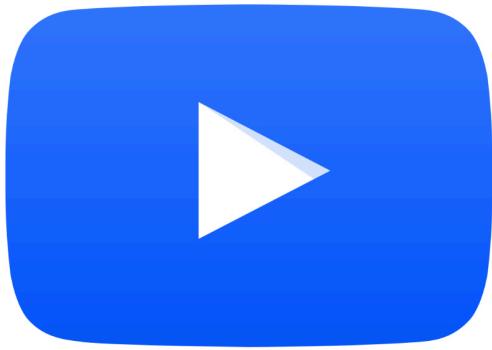

€325,75 (excl. VAT)

This electric vacuum table on tiltable support is designed to clamp smooth, non-porous workpieces. The vacuum between the base of the table and the workpiece ensures firm clamping and leaves no traces after use. To make the table vacuum, it must be connected to the electric vacuum system SVE600 by Virutex (included). The head of the support can tilt 90° so that you can place the workpiece in an ideal position. The support must be secured with clamps (not included). This support is specifically designed to connect to the SVE660 or SVE670 model. No direct connection to the electric vacuum system SVE600 as model SVE660 or SVE670.

SKU: VIR-SVE680
