

FEEDER V380

€1 .066,11 (excl. VAT)

Powerful feeder with a heavy-duty aluminium housing. Very precise feeder, equipped with a powerful 1 HP motor and eight working speeds. This allows you to work at your own pace, adapted to the hardness of the wood. The machine is very easy to move up and down and the large synthetic wheels ensure a safe and stable working environment. The entire device is rustproof due to a special treatment. Work smoothly and safely with heavy spindle moulders or other woodworking machinery using the Feeder V380.
