

FINGER GRIP BIT (Z=2) SHANK 12MM - Ø38,1MM

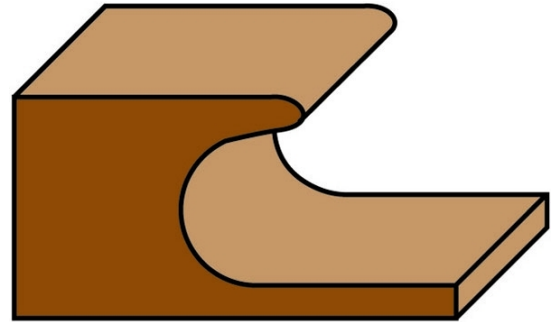

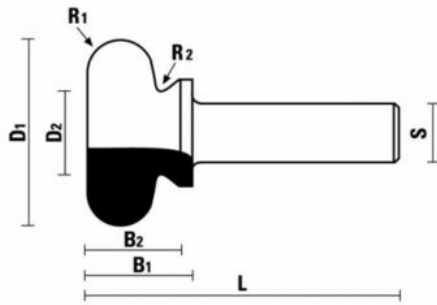

€108,20 (excl. VAT)

These router bits allow to create integrated pulls into drawers or doors. Thanks to the curvature of the bit, it provides positive grips and easy edge on the fingers. The Sistemi Klein finger grip bit is perfect for those who want to produce contemporary cabinet doors or drawers. Because the router bit removes large amounts of material while working, it is recommended that you keep your hands as far away from the working bit as possible.

Thanks to the cutting edges in high quality carbide metal, you can use this bit effortlessly on most types of wood. Pass multiple times when removing large quantities of material.
