GALERIJAFBEELDINGEN

The Klein Finger-Jointer is an assembly of six high-quality carbide tipped finger slot cutters. The minimum thickness is 11mm with the one-finger slot cutter; the maximum thickness is 36 mm with the five-finger assembly. The appropriate assembly is chosen according to the wood thickness. Using this finger joint assembly will greatly strengthen the joint significantly through extending the glue line threefold.

Equipped with a ball bearing for easier work. Thanks to the cutting edges in high quality carbide metal, you can use this bit effortlessly on most types of wood. The kit consists of one bearing and six disc cutters. The disc cutters A (Art. C180500R) have a thickness of 1,85mm. The disc cutter B (Art. C180501R) has a thickness of 5,5mm. Each disc cutter has two cutting edges.

PRODUCT INFORMATION

- HW carbide cutting edges
 - For most wood types
 - For finger joint assembly
- Working height 11mm - 36mm
- For router milling machines or CNC machines
