

GRINDING ATTACHMENT FOR TURNING CHISELS 50K

€33,06 (excl. VAT)

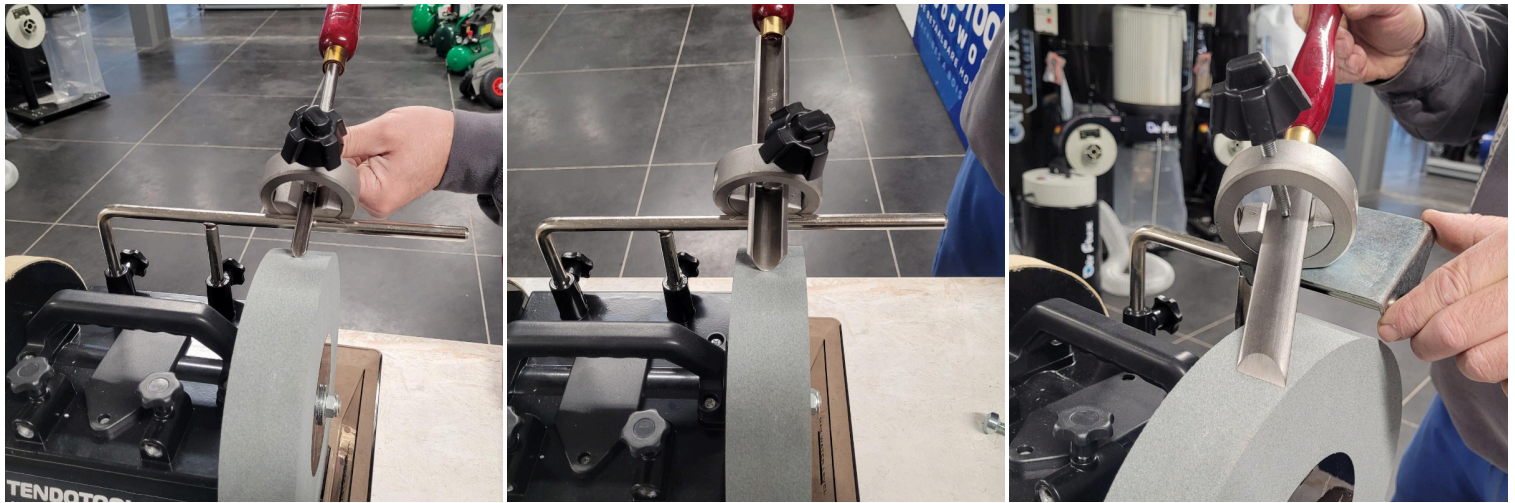

The 50K sharpening attachment for turning chisels is the solution for woodturners looking for an easy way to keep their chisels sharp. Designed for use with the wet grinder, this jig offers a quick and precise way to sharpen your beveled and hollow chisels.

With the chisel holders attached to the jig, you can easily move your chisels back and forth on the tool rest. A knob ensures that your chisel is securely locked in the jig. Hollow chisels do not require the use of the chisel holder; simply press the jig against the tool rest and sharpen as required.

Thanks to the 50K sharpening attachment, you can now enjoy sharp and efficient chisels worry-free!
