

GRÖBE SPLITTER TT1350/11T GASOLINE - 11 TONS

€1 .483,47 (excl. VAT)

Standing wood cleaver for two-hand operation. This powerful wood cleaver is perfect for semi-professional or home use. With the help of this splitting machine you can easily split wood pieces up to 1000mm in length (if extension 3GRLAKR is used) and 450mm in diameter. The table can be adjusted to three heights 520mm - 900mm or 1300mm. In terms of performance, this model is identical to the TT1350/12T with the difference that this model is equipped with a 6.5 HP gasoline engine (Briggs & Stratton). Up to 11 tons of pressure. Thanks to its compact design, this cleaver is easy to store or move. Easily movable thanks to the rubber tires.
