

HAND-HELD DRYWALL SANDER LPM97S

€467,43 (excl. VAT)

This sander from Virutex is ideal for painters and plasterers. Thanks to its low weight and ergonomic design, you can work quickly, efficiently and without fatigue. Equipped with electronic speed control, allowing optimum adaptation to the surface to be machined and to the grain of the abrasive used. Quick connection for the extraction system by means of a bayonet connection. It is possible to disassemble part of the sanding disc in order to sand hard-to-reach areas.

Standard delivery includes: sanding disc grain 80, connector for dust extraction and carrying case.
Additional sanding discs with different grit sizes are always available.
