

KIT SRI174T

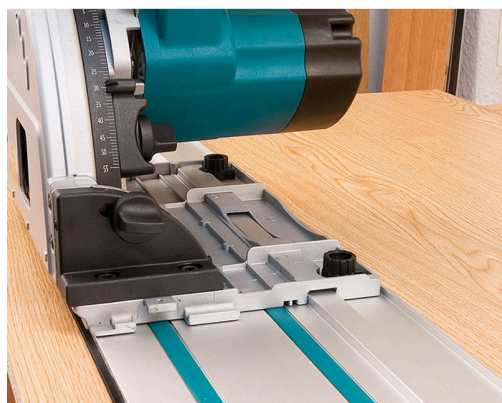

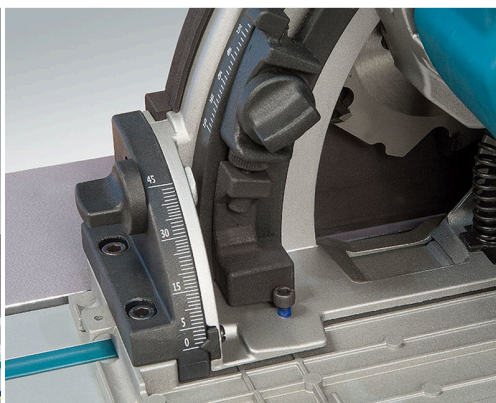

€123,96 (excl. VAT)

Kit for Virutex's SRI174T plunge-cut saw for V-grooving composite panels (dibond, Alucobond® and similar) in a simple and fast way, for the subsequent bending of the composite plates according to the needs of the assembly.

SKU: 7445036

GALERIJAFBEELDINGEN

The new grooving kit for the SRI174T plunge-cut saw allows for easy and quick V-grooving in composite panels (dibond, alucobond and similar) so that they can then be folded according to the needs of the assembly.

The kit has an effective device to regulate the milling depth in the SRI174T Plunge-cut Saw, which can be assembled fast and easily. Thanks to the adjustable nozzle of the SRI174T and the design of the cover that incorporates the kit, optimum chip extraction is achieved.

The kit comprises a front guard, a 90° milling cutter, a depth adjustment device and a gauge.

PRODUCT INFORMATION

- Kit for V-grooving composite panels (dibond, Alucobond® and similar) in a simple and fast way with the SRI174T

DESCRIPTION

The new grooving kit for the SRI174T plunge-cut saw allows for easy and quick V-grooving in composite panels (dibond, alucobond and similar) so that they can then be folded according to the needs of the assembly. The kit has an effective device to regulate the milling depth in the SRI174T Plunge-cut Saw, which can be assembled fast and easily. Thanks to the adjustable nozzle of the SRI174T and the design of the cover that incorporates the kit, optimum chip extraction is achieved.
