

KREG 90° POCKET-HOLE DRIVER.

€26,99 (excl. VAT)

Turn any drill into a 90° drill with the Kreg 90° Pocket-Hole Driver. With this compact drill attachment, you can tighten screws in places that you cannot reach with your drill.

The included 7.62cm square drill bit has a magnetic tip that clicks into the head of a pocket-hole screw. This attachment is universally applicable, i.e. for all drills and all hexagonal bits. Thanks to its ergonomic design, you can easily hold the Kreg 90° Pocket-Hole turner in place with one hand while operating the drill with the other. It is also suitable for use with an impact drill. When you need to tighten screws in tight spaces, you can count on the Kreg 90° Pocket-Hole turner to get the job done.

SKU: KRE-KDRV-90DG
