

## KREG ASSEMBLY TOOL FOR DRAWER FRONT

**€39,99 (excl. VAT)**

Whether you are starting from scratch, renovating or repairing, the drawer front assembly tool is the simple and effective way to assemble and align drawer fronts. It removes the need to use one hand to hold pieces in place while you work. The thick steel design features large clamp pads, a GripMaxx non-slip surface and ribbed corners to minimize flexibility and maintain project stability.

The Drawer Front Mounting Tool reduces the clumsy hassle and repositioning required and simplifies the process to three simple steps: clamp, align, attach.

Includes left and right Carrier front mounting tools.

Combine it with the Setup and Spacer Shims (sold separately) for accurate and consistent openings and sight lines.

**SKU:** KRE-KCS-DFMT-INT
