KREG AUTOMAXX BENCH CLAMP 152 MM

€57,99 (excl. VAT)

Bench clamps are the ideal solution for clamping pieces on the workbench. These versatile clamps are ideal for making perfectly fitting connections with Kreg Joinery™ and for connections in general, milling, sawing, sanding, drilling, etc. Bench clamps are compatible with the Clamp Trak™, the bench clamp base, the clamping table, the mobile workcentre, etc. to secure workpieces with an extra-large clamping area that evenly distributes the clamping force. Thanks to Automaxx® technology, the bench clamps automatically adjust to the thickness of the material, with a single push of the handle, whether the material is thick, thin or somewhere in between. In addition, the clamping pressure of these clamps can be easily adjusted with a set screw.

SKU: KRE-KBC6
