

KREG COMBO TRACK - TRACK 1219 MM

€71,67 (excl. VAT)

Kreg KMS7448 Combo-Trak is a 1219 mm (48") long track that can be built into a surface. With this track, you can, for example, make your own router table. This double track has both a 9.5 x 19 millimetre track and a track for 1/4" (6 or 6.3 mm) bolts. The wide track can be used for a mitre guide, featherboards or other clamping device. Most of the regular bolts and clamps for t-track A and B fit in the narrow track.

SKU: KRE-KMS7448
