

KREG HEAVY DUTY TRAK - TRACK 1219 MM

€107,99 (excl. VAT)

The Heavy-Duty Trak is an 'L' shaped, anodised aluminium extrusion that is extremely straight and ideal for heavy-duty commercial applications. This Trak contains four T-slots that accommodate the head of a standard 1/4" (6 mm) hex bolt. A 13mm (1/2") countersunk notch runs along the top and front of the Trak for easy attachment of an adhesive tape measure (sold separately).

The track has a length of 1219 mm.
