

KREG KMA3232 SHELF PIN JIG - 32MM SPACING (LINE DRILLING)

€43,99 (excl. VAT)

Add perfectly placed line drillings to your projects with the Kreg Shelf Pin Jig. The hardened steel drill guides ensure precision for flat, non-rolling shelves. The template comes with a 5mm brad-point drill bit. The drill guides are centred at a standard distance of 32 mm and are guaranteed for life. Whether you are adding shelves to existing furniture or building completely new ones, making the line drillings is easy. Use the guide to align the template with the edge of your workpiece for straight, accurate rows. Quickly drill six holes in one go - or attach a second Shelf Pin Jig to drill longer rows of holes with the same consistent spacing. The holes are drilled 37 mm from the edge.

SKU: KRE-KMA3232-INT

GALERIJAFBEELDINGEN

Add perfectly placed line drillings to your projects with the Kreg Shelf Pin Jig. The hardened steel drill guides ensure precision for flat, non-rolling shelves. The template comes with a 5mm brad-point drill bit. The drill guides are centred at a standard distance of 32 mm and are guaranteed for life.

Whether you are adding shelves to existing furniture or building completely new ones, making the line drillings is easy. Use the guide to align the template with the edge of your workpiece for straight, accurate rows. Quickly drill six holes in one go - or attach a second Shelf Pin Jig to drill longer rows of holes with the same consistent spacing.

The jig also has convenient functions for installing concealed cabinet hinges and drawer slides in frameless cabinets. Cast alignment marks and an indicator window help to align the mounting screws for hinge plates - set to the standard distance for a 32 mm cabinet system - which also helps to locate the front hole for the installation of a drawer guide. The holes are drilled 37 mm from the edge.

PRODUCT INFORMATION

- Drilling jig for line drilling
 - 6 holes, 32mm apart
 - 37 mm from the edge
 - Ø 5mm
- Includes drill with depth stopper
- Index pin for easy adding of line drillings
- Ability to link multiple jigs together
