

## KREG KWS500 TRACK HORSE

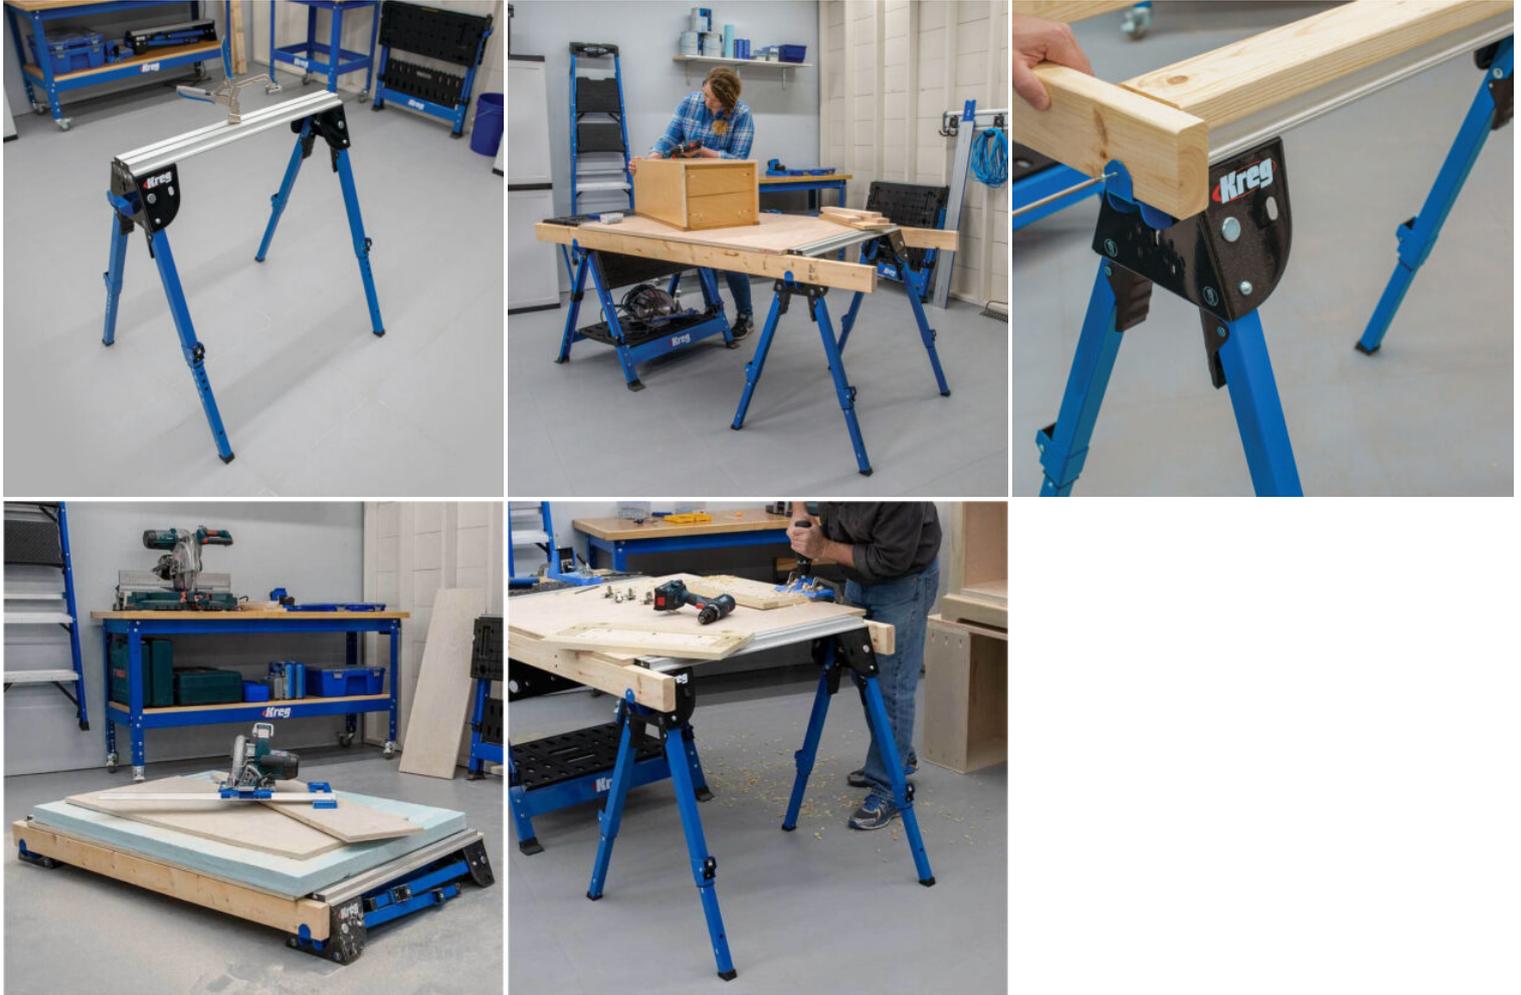

**€149,99 (excl. VAT)**

The Track Horse is packed with versatile functions and has features that go beyond a normal sawhorse. The steel and aluminium construction makes the Track Horse sturdy and it has a capacity of 997 kg per pair, so it can easily handle large, heavy projects and materials. Including Automaxx bench clamp. Thanks to the support brackets, a larger work surface can be created in no time in combination with a second Kreg workhorse, or with the Kreg Mobile Project centre.

**SKU:** KRE-KWS500

## GALERIJAFBEELDINGEN

The Kreg KWS500 workhorse is extremely sturdy and versatile in use. With its steel legs and aluminium track, it is a stable, strong and mobile workstation with which you can make any place your workplace. This workbench can be used as a trestle, workbench, clamping station and more. Versatile in use, so you can do anything with it. With this workbench, you can work on projects when, where and how you want.

To protect the aluminium tracks when, for example, you are sawing, you can attach a board to them with the screws provided. You screw the screws into the board and slide it over the aluminium track. This ensures that the tracks are not damaged and you can still work freely. Thanks to the support brackets, a larger work surface can be created in no time in combination with a second Kreg track horse, or with the Kreg Mobile Project centre. This allows you to double the carrying capacity of almost 500 kg! The support brackets are easy to mount. Then

place two long planks in it. Lay plywood on top of this to create an extra-large workbench. With this size you can handle any job.

The height of this workstation can be adjusted to your preference. The legs are adjustable and can even be folded away completely. With folded legs, the height is 168 mm. This height is ideal for work low to the ground, or if you want to store the workstation. With folded legs, the minimum height is 626 mm. Then the height is adjustable from 804 mm (the same height as the Kreg Mobile Project Center), to 829 mm, 855 mm, 880 mm and the highest to 906 mm. The Kreg KWS500 workbench is also supplied with a Kreg Automaxx quick release clamp. You place the clamp on the track and can thus slide in all directions and clamp your workpiece in all ways.
