

KREG MAGNETIC STUD FINDER WITH LASER

€29,99 (excl. VAT)

The quick, easy way to find studs. With a simple and intuitive design, the Kreg Magnetic Stud Finder with Laser-Mark is a convenient way to hit the target every time. With strong rare earth magnets, the Magnetic Stud Finder with Laser-Mark offers reliable indication of wood and metal beams. The Laser-Mark laser line, clearly visible bubble level and precision marking slot make it easy to anchor cabinets, shelves and more without having to mark on the wall. Because the Magnetic Stud Finder with Laser-Mark hangs hands-free on the wall, you can work confidently and quickly without worrying about inaccurate results or having to work with only one hand. Batteries included.

SKU: KRE-KMM1000LZ
