

KREG MOBILE PROJECT CENTER KWS 1000 WORK TABLE

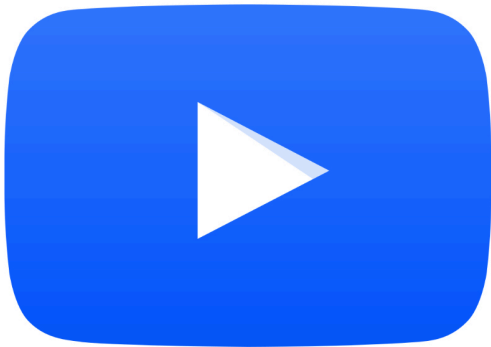

€249,99 (excl. VAT)

The Kreg KWS1000 Mobile Project Center is a multi-purpose mobile workbench that is ideal for DIY jobs, repairs and woodworking projects. It's easy to build up and put away again. It provides a sturdy work surface for any type of project.

The workbench weighs barely 18 kg yet is extremely stable. It has a load capacity of 158 kilos and includes several built-in storage spaces and holders for, for example, your drill. The workbench also has a shelf at the bottom with a load capacity of 11.3 kilos. This is the perfect storage space to keep your tools close at hand without them getting in the way. The table top has holes (19 mm) for the Bench Dogs or for clamping tools.

SKU: KRE-KWS1000-INT

GALERIJAFBEELDINGEN

The Kreg KWS1000 Mobile Project Center is a multi-purpose mobile workbench that can be used for a variety of purposes.

It's a workbench, sawhorse, clamping station and assembly table in one. It allows you to work on your projects when, where and how you want. You can turn any place into your workspace.

This versatile workbench is ideal for DIY jobs, repairs and woodworking projects. It's easy to build up and put away again. It provides a sturdy work surface for any type of project.

The workbench weighs barely 18 kg yet is extremely stable. Because it can be folded away completely, it is

easy to put away in your workshop... and therefore it is also easy to take with you in the trunk of a passenger car or van. This Kreg Mobile Project center also has an easy system to connect 2 workbenches to create an even larger work surface!

The workbench has a load capacity of 158 kilos and includes several built-in storage spaces and holders for, for example, your drill. The workbench also has a shelf at the bottom with a load capacity of 11.3 kilos. This is the perfect storage space to keep your tools close at hand without them getting in the way. The table top has holes (19 mm) for the Bench Dogs or for clamping tools.

The Kreg Mobile Project Center also comes with a variety of clamping accessories. Place the Kreg Automaxx Clamp Vise on the tracks in the center of the workbench to slide the clamp in any direction and clamp your workpiece in any way. In addition, several rails are available under the work surface, in which the workbench clamp can easily be inserted.

The Kreg KWS1000 comes standard with 1 Automaxx bench clamp, 4 Kreg Bench Dogs, 2 support brackets and 2 Trak bushings
