

KREG MOUNTING SET FOR DRAWER FRONT

€49,99 (excl. VAT)

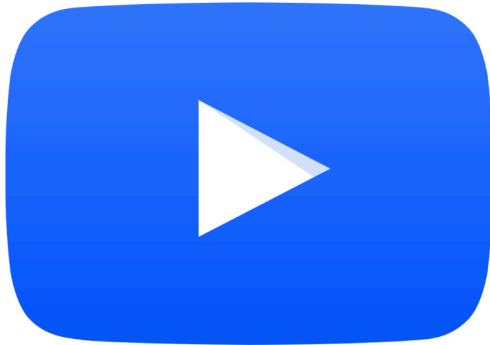

Whether you are building from scratch, renovating or repairing, the Drawer Front Mounting Kit is the simple, effective way to assemble and align drawer fronts, with consistent openings and reveals. The thick steel design with large clamping pads, GripMaxx non-slip surface and ribbed corners minimises flexibility and provides stability while working, without the need for a hand to hold pieces in place.

The Drawer Front Mounting Tool Kit reduces fiddling and repositioning, simplifying the process in three simple steps: clamp, align, attach.

The Drawer Front Mounting Tool Kit includes a left and right drawer mounting tool and seven Setup and Spacer Shims (2 of each size: 2 mm for inset drawers, 3 mm and 6 mm; 1 of 19 mm) that can be stacked via magnets to set consistent openings and reveals.

SKU: KRE-KCS-DFMT-PRO
