

## KREG POCKET-HOLE JIG 310

**€25,99 (excl. VAT)**

The Kreg® Pocket-Hole Jig 310 makes woodworking a breeze, whether you are starting your first DIY project or have been working with wood for years. The Pocket-Hole Jig 310 has a simple, easy-to-understand adjustment system, allowing you to work with boards and plywood from 13 to 38 mm thick. With a drill guide made of hardened steel and a convenient material thickness stop.

**SKU:** KRE-KPHJ310INT

**GALERIJAFBEELDINGEN**

The Kreg® Pocket-Hole Jig 310 makes woodworking a breeze, whether you are starting your first DIY project or have been working with wood for years. The Pocket-Hole Jig 310 has a simple, easy-to-understand adjustment system, allowing you to work with boards and plywood from 13 to 38 mm thick. With a drill guide made of hardened steel and a convenient material thickness stop.

The included material thickness gauge and Easysset drill bit make setting up the jig a snap, and the GripMaxx™ anti-slip foot holds the jig firmly in place, allowing you to drill perfectly placed pocket holes time after time. With its durable construction and lifetime warranty on the drill guide, the Kreg® Pocket-Hole Jig 310 is guaranteed to give you years of enjoyment. Exactly as you would expect from Kreg®, the leading brand for pocket hole tools.

## PRODUCT INFORMATION
