

KREG PORTABLE CROSSCUT

€26,19 (excl. VAT)

The Kreg Portable Crosscut accessory allows you to quickly and accurately crosscut boards up to 203 mm wide with your circular saw. This attachment allows you to accurately cut angles of 90° and 45°.

The Kreg Portable Crosscut has a support ledge for your circular saw. This keeps the saw stable from the beginning to the end of the cut. This makes accurate crosscutting a lot easier and you no longer have to worry about whether you are cutting straight.

The crosscut accessory features an adjustable guide arm, the retractable cutline indicator, which allows you to set exactly where your saw blade will be. You set the accessory accurately for your machine. This makes it ideal for repeat work because you don't have to reset the accessory each time.

Thanks to the special non-slip material, the Kreg Portable Crosscut has a firm grip on the wood and the accessory stays in place perfectly, so you always achieve an accurate result.
