

KREG PRECISION MILLING TABLE GUIDE

€263,99 (excl. VAT)

This guide rail made of anodised aluminium is equipped with a T-shaped adjustment system that keeps the rail always parallel to the mitre gauge groove. The guide rail is easy to adjust and is held firmly in place with a double locking mechanism, namely a lever on the input side and a quarter-turn knob on the output side, so that the rail does not bend.

SKU: KRE-PRS1015
