

KREG SPACER FOR DRILLING JIGS (300 SERIES)

€14,55 (excl. VAT)

Do more with your Pocket-Hole Jig 320 by adding more options for hole spacing. This kit consists of two spacers for drilling jigs that fit between the drilling guides, so you can easily increase the distance between the holes in 19 mm increments, depending on what you need for your project. Place the spacers next to the drill guides or next to another spacer and simply tighten them.
