KREG STAINLESS STEEL SCREWS 38 MM, COARSE THREAD FOR SOFTWOOD

€30,99 (excl. VAT)

Kreg square-head screws made of stainless steel. The screw has a length of 38 mm (1 1/2") and a coarse thread, which makes it ideally suited for softwood. Our stainless steel screws are specially designed for damp environments, exposure to water and other corrosive environments, such as pressure-treated lumber.

This screw is available in packs of 100.
