

KREG TRUE-FLEX™ DOUBLE PACKAGE

€43,99 (excl. VAT)

The True-FLEX™ springboard owes its name to its meticulously crafted design. The True-FLEX™ spring board exerts a constant and optimal pressure, and will withstand years of intensive use in your woodworking shop. The spring board is made of extremely durable plastic composite and has a Wedge-Lock™ system that allows it to be attached to various tools without additional material. Whether you are using a mitre or T-slot, working on a table saw or a router table, the Wedge-Lock™ system adapts so that you can work with confidence. When used together, they provide additional support for large workpieces. This allows you to work even more precisely.
