

MITRE SAW M-SAW TT305X

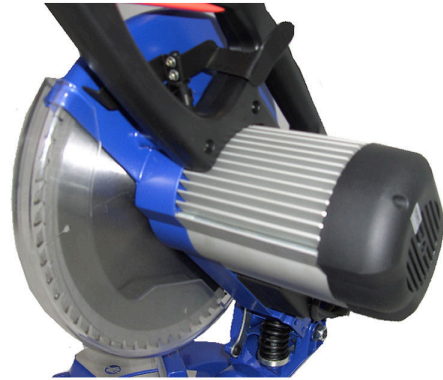

€297,52 (excl. VAT)

The TT305X is a mitre saw with a silent 1600 W induction motor that requires no maintenance (which is a big advantage over the carbon brush motor in the smaller models). Its compactness makes it particularly convenient to take with you when working on the move.

SKU: 0MS305X

GALERIJAFBEELDINGEN

The TT305X is a mitre saw with a silent 1600 W induction motor that requires no maintenance (which is a big advantage over the carbon brush motor in the smaller models). Its compactness makes it particularly convenient to take with you when working on the move.

The use of ball bearings on all joints ensures precise rotation of the table, head and tilting system. The compact saw has a die-cast aluminum body and a clear mitre indication. The silent, maintenance-free 1600 W induction motor delivers 30% more power and is 40% more silent than a carbon brush motor. The saw blade has a diameter of 305 mm and 60 teeth.

The TT305X is further equipped with an ergonomic vertical D handle, which ensures that the up and down movement is performed from the wrist rather than the shoulder. An added benefit of this handle is that it can be used with either the left or right hand.

PRODUCT INFORMATION

- Silent, maintenance-free 1600 W induction motor delivers 30% more power and is 40% more silent
 - 305 mm saw blade with 60 teeth
 - Clear mitre indicator
 - Die-cast aluminum body

- Ball bearings on all joints ensure precise rotation of the table, head and tilting system
- Ergonomic D-handle reduces shoulder strain and can be used with either the left or right hand

DESCRIPTION

The TT305X is a mitre saw with a silent 1600 W induction motor that requires no maintenance (which is a big advantage over the carbon brush motor in the smaller models). Its compactness makes it particularly convenient to take with you when working on the move. The use of ball bearings on all joints ensures precise rotation of the table, head and tilting system. The compact saw has a die-cast aluminum body and a clear mitre indication. The silent, maintenance-free 1600 W induction motor delivers 30% more power and is 40% more silent than a carbon brush motor. The saw blade has a diameter of 305 mm and 60 teeth. The TT305X is further equipped with an ergonomic vertical D handle, which ensures that the up and down movement is performed from the wrist rather than the shoulder.
