

MOBILE TABLE MT58K - HEIGHT ADJUSTABLE

€450,11 (excl. VAT)

The MT58K table is mobile, height-adjustable (with four fixed positions) and foldable for easy storage. The table provides a stable and solid base for attaching and transporting machines. The table can be moved or adjusted in height while the machine is attached. As a result, you do not have to constantly assemble or disassemble the machine. Adjusting the height is easy. Operate with your foot at the bottom of the height adjustment, then use the lever to secure it in the correct position. The maximum load-bearing capacity of the table is 100kg. Thanks to its small size, this table is ideal for use on location.

Extension pieces are optionally available.

SKU: VIR-MT58K
