

MULTI DRILLING SET: T MULTI GUIDE PMT111 + EXTENSION 810MM

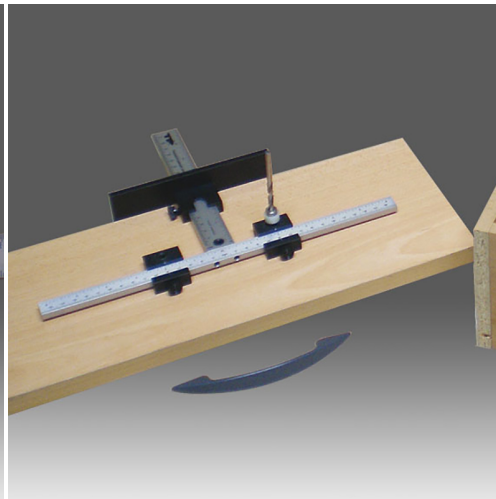

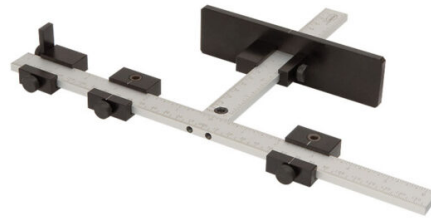

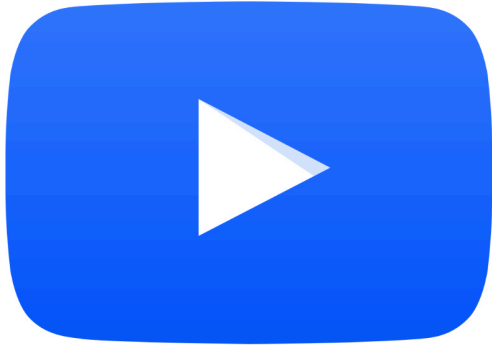

€273,61 (excl. VAT)

This multifunctional position guide easily replaces all other guides or moulds. The T multi guide is an indispensable tool for making furniture, cabinets,... The high-precision drill guide allows you to carry out all drillings with a distance of 32mm (or more) correctly. Use this guide for: handles on doors and slides, holes for shelves, hinges or drawer guides. With the help of the extensions you can also extend the guide in order to carry out multi drilling with a distance of 32mm. These extensions are included as standard in this kit.

The basic guide has a length of 320mm and is equipped with a central borehole and two adjustable boreholes in hardened steel. You can extend this length to a maximum of 810mm by using the extensions for multi drilling. Supplied as standard with a Ø5mm drill bit.
