

## MULTI-TONGUE AND GROOVING CUTTER SET BORE 30MM

**€896,69 (excl. VAT)**

This set consists as standard of four cutter heads in light alloy and steel, equipped with carbide knives (HW). Thanks to the different cutters, this set allows you to easily make pen and groove connections with different finishes. Possibility to extend the set with two additional cutter heads on request. The cutters vary in diameter between 122mm and 138mm. For more technical information, see the technical data sheet. Thanks to the tungsten carbide blades, this grooving cutter cuts effortlessly through solid boards or solid woods. Also suitable for MDF.
