

OUTLET | JIGSAW

~~€136,00~~ €85,00 (excl. VAT)

Dankzij het fijne zaagblad is de decoupeerzaag bij uitstek geschikt voor het zagen van willekeurige vormen in plaatmateriaal. The foot plate can be adjusted to an angle of up to 45°, under reinforced cutting is possible with this unit. Its agile nature makes it suitable for fine finishing. It can be used in wood, plastic, ceramics and hard aluminium. The necessary saw blades are included.

SKU: S-FSPE81

Thanks to its fine saw blade, the jigsaw is ideally suited for cutting random shapes in sheet metal. The foot

plate can be adjusted to an angle of up to 45°, under reinforced cutting is possible with this unit. Its agile nature makes it suitable for fine finishing. It can be used in wood, plastic, ceramics and hard aluminium. The necessary saw blades are included.

PRODUCT INFORMATION

- Electronic speed preselection
