The TT400 is a heavy-duty cut-and-miter saw for stationary use, the largest of its kind.

The TT400 is equipped with a silent, maintenance-free 3400 W (4.5 HP) induction motor. It can be used for both aluminum and wood.

The use of ball bearings on all joints ensures precise rotation of the table, head and tilting system. The saw has a die-cast aluminum body and a heavy cast iron base (80 kg). The silent, maintenance-free 3400 W (4.5 HP)

belt-driven induction motor is positioned at the rear of the head, giving the saw a large capacity and high torque. The saw blade has a 400 mm diameter and 80 teeth.

The TT400 is further equipped with a reversible handle with controls on the protective cover.

PRODUCT INFORMATION

- Silent, maintenance-free 3400 W (4.5 HP) induction motor with belt drive
 - 400 mm saw blade with 80 teeth
 - Clear and tiltable mitre indication
 - Die-cast aluminum body
 - Heavy cast iron base (80 kg)
- Ball bearings on all joints ensure precise rotation of the table, head and tilting system
 - Horizontal handle with control on protective cover

DESCRIPTION
