

OUTLET | SPARKY POLISHER

~~€145,00~~ Original price was:
~~€145,00.~~€95,00 Current price is: €95,00. (excl. VAT)

This polisher is suitable for both paintwork and various sanding tasks. The machine runs on a powerful power of 2000W and has a constant, no-load speed of 800 to 2750 rpm. The electronic speed control (with preselection) allows you to select the right speed for your job. The on/off switch on top of the machine allows you to operate it with ease, while the strong u-grip provides a firm grip and allows you to hold the machine steady on the surface to be polished. This contributes to the ease of use. The gearbox is made of magnesium alloy, the carbon brushes have an autostop function. A 175 mm flex pad and 175 mm sanding disc.

SKU: S-PM2000E
