

OUTLET | VISE GROOVE

~~€75,00~~ **€26,00 (excl. VAT)**

A workpiece is clamped securely in a vice. Sparky offers you the solution with their sturdy vices, designed entirely in cast iron, which adds to their sturdiness. With the help of this vice, you can work on your workpieces in different ways. The vice can be adjusted by means of the rotating spindle, which is operated by a wrench. The clamping plates are equipped with a rubber protection, so that your material will not be damaged during clamping. The vice has V-shaped grooves to support vertical and horizontal fastening of round pieces.

SKU: N/A

GALERIJAFBEELDINGEN

Anyone who wants to clamp his workpiece should use high-quality clamps. Sparky offers you the solution, designed entirely in cast iron, which makes it more solid.
